## ABOUT ME

I am a person who is characterized mainly by the constant search for learning. After finishing my degree in Physical Education with a focus on sports science, I have pursued a career as a Professional Chef for the simple fact of love and intrigue towards the world of gastronomy.

I have had the opportunity to work and travel with different coaches who have been present in Olympic Games, from whom I have learned a lot about psychology, pedagogy and above all to listen carefully and to solve problems in the most effective way possible.

I consider that I have a very good ability to adapt to different environments and I believe that nowadays we are going through a world that is constantly changing, so discovering and experiencing different areas is one of my main motivations. That is why I am looking for a new challenge that will make me grow personally and professionally, being able to offer all my experience.

I believe that the essence of the human being is that, constantly looking for personal improvement.
